

## DIPLOMATIC MYSTERY.

**Kaiser Rejects New Ambassador.**

**Notifies State Department David Jayne Hill Is Persona non Grata.**

**Official Washington, Taken Completely by Surprise, Cannot Explain.**

**One Theory Is That Charlemagne Tower, Retiring, Is to Blame.**

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, March 25.—(Exclusive Dispatch.) The President and Secretary Root are amazed at the action of Emperor William today in giving notice that David Jayne Hill, Minister to the Netherlands, is persona non grata to him, as the successor to Ambassador Charlemagne Tower at Berlin.

Neither the President nor the Secretary of State had any intimation until today that Minister Hill was otherwise than welcome at Berlin. Last November, when the announcement was made that Hill was to succeed Tower, the State Department took pains to obtain from the Foreign Office at Berlin the usual assurance that the proposed new Ambassador was persona grata.

The intimation that Minister Hill gave offense in some way while Prince Henry was in Washington in 1902, is not credited here. Not only was Hill complimented by the President for his skill in conducting the matters pertaining to the royal visitor's entertainment, but Prince Henry himself thanked Hill, and gave him his photograph duly autographed with his good wishes.

TOWER TO BLAME?

The circumstances surrounding the resignation of Ambassador Tower are suspected to have something to do with the sudden action of Emperor William in rejecting Tower's successor.

Last summer Ambassador Tower wrote to the President in a dejected vein intimating that he was disappointed with diplomatic life and discouraged by the failure of Congress to provide adequate funds for an ambassadorial post. It is not believed that he actually tendered his resignation, but rather hinted that he might. But his dismay at the President's prompt reply, accepting the resignation, and since that time Tower is said to have been very much disgruntled at the State Department. Today it was suggested that perhaps Emperor William's objection to Hill was inspired by Tower.

At any rate, something has occurred on the other side that is a complete mystery here, although Ambassador Tower has had plenty of opportunity to keep the department informed.

HILL'S FAME.

David Jayne Hill has for many years been regarded as an authority on international law. As president of Drexel University he made that subject a specialty, and he was the author of several works thereon. He entered the service of the State Department October 25, 1898, as Assistant Secretary of State. His record in the State Department was that of an extremely efficient officer, and during the frequent illnesses and absence of Secretary Hay he discharged the duties of the post with credit. He was in a manner that elicited the warm approbation of the late President McKinley.

As having a possible bearing on today's development, the fact is recalled that Dr. Hill was a political author of great force. He was regarded as an expert on economic subjects and wrote with particular vigor and strength upon matters relating to the protective tariff, which suggests that possibly there might be found the germ of the objection now lodged against him.

CAN BE NO APPEAL.

Today's decision of the German Emperor came as a complete surprise to official Washington. It is nevertheless final as far as Dr. Hill is concerned, for the etiquette that governs international relations does not permit of any question of the right of a sovereign to interpose an objection to the reception of any official who comes to his post as Ambassador.

From one source it was learned that the grounds upon which the German government declines to receive Dr. Hill are, in general, that he is not regarded as persona non grata to the German government. The German Foreign Office made inquiries at The Hague and these brought the report that Dr. Hill had not created much of a position for himself at the Netherlands court.

LETTER WILL EXPLAIN.

(BY THE ASSOCIATED PRESS.—P.M.) WASHINGTON, March 25.—After the conference between Ambassador Von Sternberg and Secretary Root, it was ascertained that a letter in German was sent to the State Department explaining the reasons for the change of attitude on the part of that government toward Mr. Hill. In the letter, the details of the objection, no comment could be elicited as to the probable action of the American government in respect to the matter. In any event, it is regarded as certain that an expressed objection to Mr. Hill made by Germany will be decisive so far as his appointment is concerned.

UNIVERSITY CRISIS.

## STANFORD STUDENTS THREATEN WALK-OUT.

**Suspension of Forty-one Boys and Penalizing of Hundred Others Brings Matters to an Acute Crisis at the Northern University.**

(BY DIRECT WIRE TO THE TIMES.)

STANFORD UNIVERSITY, March 25.—(Exclusive Dispatch.) The Faculty Committee on Student Affairs today suspended thirty-four more undergraduates for taking part in the parade. These, with seven of the original twelve, make forty-one men suspended, while 100 were penalized five to ten hours in their standing.

Of the twelve first dismissed, A. Taylor of Los Angeles, S. M. Patterson of Pasadena, W. P. Fuller of San Francisco, K. M. Green of San Mateo and H. W. Nelson of Alameda were re-investigated. President Murphy of the Associated Students has called a mass meeting of the undergraduates for tomorrow afternoon. He advocates a general walk-out as the only course left. The undergraduates to show their serious disapproval of the faculty's course.

Among the men suspended are four "varsity" captains: William Kerner of last year's football team; Leslie Gay of the 1905 crew; Fred Lanagan, of the track team, and P. B. Delano, of the tennis team. Among prominent upper class men dismissed are: E. W. Sawyer of Los Angeles, E. C. Thompson of Alameda, J. O. McDonald of Compton, J. E. Henry of San Jose, T. R. Cadwalader of Los Angeles, W. H. Morgan of Los Angeles, W. H. Richardson of Santa Barbara, H. P. Bruning of Oakland, R. W. McElroy of San Francisco, P. R. Watson of San Diego, R. C. Westwick of Santa Barbara, J. E. Cushing of San Rafael, F. R. Langman of Denver, H. S. Ross of Pasadena, F. J. Macomber of Los Angeles, A. F. Dean of Corona, G. D. Russey of Los Angeles and L. R. Gay of Redlands.

The announcement by the Student Affairs Committee created a storm of hostile criticism throughout the student body. It is doubtful if the faculty could have achieved more unpopularity had it suspended the entire 200 men who took part in the parade. Nearly every man in the parade expressed his indignation.

BLOOD POISONING.

## DIPLOMAT STEVENS DIES OF HIS WOUND.

(BY THE ASSOCIATED PRESS.—P.M.)

SAN FRANCISCO, March 25.—Durham White Stevens, the diplomatist, shot by in Whan Chang, a young Korean, on Monday, died at the St. Francis Hospital tonight, following an operation. Death was due to peritonitis. The operation disclosed that the assassin's bullet had perforated the intestines in six places.

At the bedside when death came were Consul Koike, Japanese consul general in San Francisco; Norris Wilson and Col. W. A. Simpson, personal friends of Mr. Stevens, and Dr. Zumwalt, Terry and Huntington.

Mr. Stevens regained consciousness only once after the operation and then said he was in great pain. The physician realized at 6 o'clock tonight that death was certain in a few hours, and operated in the faint hope of saving his life.

Consul General Koike was greatly affected by the death of Mr. Stevens. Relatives are on the way from New York, and the remains will await here for their disposition.

H. W. Chun, the companion of the assassin, who received one of the bullets intended for Stevens, is resting easily, and predictions are made that he will recover.

## AT TARGET PRACTICE.

## FRENZIED ACTIVITY.

**Battleships Go After Records.**

**Quiet Harbor of Magdalena Clamorous With Boom of Big Guns.**

**Nerves Strung to Highest Tension in Contest for Honors.**

**Din Is Deafening and Effect Thrilling and Electrical.**

(SPECIAL CORRESPONDENCE OF THE ASSOCIATED PRESS.)

MAGDALENA BAY, March 16 (Via San Pedro, Cal.) March 25.—Today was not a day of respite for the hard-worked crews of the Atlantic fleet. All day long, from early light at 6 o'clock in the morning, the big guns boomed out on the target ranges, the great hinged shells tore out across the smooth, unruffled waters of the bay, smashing ragged rents in the white canvas targets and throwing tons of water high in the air.

The men worked with almost frenzied activity in the turret and casemate and exposed batteries. The ships sailed continuously around the target ranges, the guns blazing forth as they passed the position buoy and came onto the range. The din on board was deafening, the effect electrical and thrilling. Officers and men on decks and in the gunrooms go about with their ears stuffed with cotton that their hearing may not be injured. Many wear a patent celluloid protector inside the ear, which saves the sensitive membrane from the shock.

Guns of nearly all sizes are being fired, from the sharp, barking three-pounders to the ponderous reverberating seven and eight-inch calibers. The largest guns, the twelve and thirteen inch port, will be the last to be fired. The sharp, quick-swinging report of the anti-aircraft guns, which are mounted on the bridges of the ships, is most pleasing. The effect of the sound is more painful than from the guns of larger caliber. The latter seem to be the only ones who with their terrific vibration, but there is not the concerted penetration of sound. All of the ports and battle ports are closed tightly during firing, but this does not keep out the din.

SHIPS TAKE THEIR TURNS.

Four regulation target ranges have been laid out and a battleship is busy on each. They are somewhat close together, although far enough distant not to be disturbing to each other and arranged in such manner as to eliminate all danger.

The Kansas and Vermont have been busy with their preliminary practice Saturday, Sunday and today. The Kansas has already fired most of her guns in preliminary work, but the Vermont has fired none. The Kansas finished preliminary work Monday noon and left the range, her place being taken on Range No. 1 by the Illinois. The Kansas will not get a chance at record practice for two weeks.

Several of the other battleships, including the Illinois, Maine and Minnesota, have already begun their record practice. The record firing will occupy four days to the ships. Within four days on the range at one time, it should be completed some time between April 5 and 10.

It is upon the record practice that the percentage tables are computed, and the trophy for battleship awarded. The percentages are secret, and will not be known until they reach Washington, and then only the name of the winner is announced. The rules of the censorship strictly forbid any mention of this, or whether a ship does well or badly.

The record practice is largely, if not entirely, a contest between the gun crews, the men who actually aim and fire the guns. The work of the vast number of orders is largely the execution of orders based upon mathematical calculation.

"What we need are absolute automatons," said one officer. "Men who are able to do with apparatus and figures exactly what they are told to do. It is a matter of mathematical calculation. Of course, in the loading and firing of the guns, as well as in the countless relations that bear upon the work in more or less proportion, the training of the ton to forty men who go to make up the battery and turret crew into a high state of efficiency is essential. They must be alert and lightning fast."

FIRING A BIG GUN.

On many of the smaller guns the loading is by hand. The heavier ones require electrical machinery. The big shells are picked up with the most rapid movement, lifted to the open breech and rammed home. Two bars of smokeless powder follow in the twinkling of an eye. The breech block slams and shuts, the pointer aims and fires, there is a deafening concussion, a tremendous puff of the big gun, a light puff of smoke is blown from the muzzle, pieces of paper and cloth in which the powder is contained are hurled into the air, and the great heavy projectile sails away across the water with frightful velocity toward the target. It travels with lightning speed, and yet, because of its size, is visible through glasses in its flight.

## IRON HORSE CRUSADE.

## RAILROADS TO FIGHT.

**Plan Attack on All Bad Rate Laws.**

**Supreme Court Decision Becomes Their Weapon of Warfare.**

**Take Definite Stand Against Acts Carrying Excessive Penalties.**

**All Such Expected to Meet Fate of Minnesota's Bad Statute.**

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, March 25.—(Exclusive Dispatch.) Following the sweeping decision of the Supreme Court of the United States in the Minnesota and North Carolina Railroad rate cases, it is the plan of railroads in all States to at once attack all rate laws which have excessive penalties attached to them.

All of this legislation was hastily constructed and made into laws in response to public clamor, and it is believed few of such laws will survive an attack in court.

In view of the decision of the Supreme Court, it is contended, it will only be necessary to make up the cases and rush them to the court at last resort, where they will meet the fate of the Minnesota and the North Carolina laws.

ERRORS IN LAWS.

The errors which attached to these laws also attach, it is said, to the majority of the rate laws, both freight and passenger, which have been passed during the last two years.

In some cases, notably that of Ohio, the Legislature has not burdened the State authorities with an administration or enforcement of the law. In Ohio, although the legal rate is twice as much as the actual rate, there is no authority to enforce it. State officers to prevent the railroads from charging what they please.

On the contrary, it is no business of the State what the railroads charge, but in the event of a greater charge than two cents a mile, the remedy lies with the person aggrieved. He or she can sue the railroad and recover double the amount of the overcharge, with a minimum penalty of \$100.

LAWS BY STATES.

A majority of the States which have recently passed rate laws and a statement with respect to penalties follows:

Arkansas—Passenger rates, no penalty; freight rates, penalty of not less than \$500 nor more than \$1000.

Colorado—No penalties.

Illinois—Passenger rates, penalty of not less than \$25, nor more than \$100; freight rates, no penalty.

Iowa—No penalties.

Kansas—Passenger rates, no penalty; freight rates, fine of not less than \$500 nor more than \$1000.

Missouri—Passenger rates, fine not to exceed \$500 or imprisonment not to exceed five years; freight rates, imprisonment in the county jail not to exceed ninety days.

Nebraska—Passenger rates, no penalty; freight rates, fine of not less than \$100 nor more than \$500. Penalty in the act of prescribing the rates for the carriage of livestock, potatoes, grain and other products, fruit, coal, lumber and building materials is a fine of not less than \$10,000 nor more than \$25,000.

New Mexico—No penalties.

South Dakota—No penalties for passenger rates and double the damages in freight rates.

Tennessee—Passenger rates, no penalty; freight rates, fine of not less than \$500, nor more than \$1000.

Texas—No penalties.

Indiana—Passenger rates, a fine of not less than \$25, nor more than \$100, with attorney's fee of \$10; reciprocal demurrage law, appointment of a receiver, for failure to observe the commission's order a fine of not less than \$500, nor more than \$1000.

JUSTICE HARLAN WILL RETIRE AFTER PRESENT TERM.

Asks Congress for Appropriation for Secretary's Salary That He May Write Memoirs of Thirty Years on Bench of Highest Judicial Body Before He Dies.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, March 25.—(Exclusive Dispatch.) Justice John Marshall Harlan, who for more than thirty years has been a member of the United States Supreme Court, has announced to a number of friends that he expects to retire at the expiration of the present term of court.

Justice Harlan has asked the appropriation committee of the Senate and House to provide for appropriations for the payment of salary for his secretary after he retires from the bench.

He desires to have a man to assist him in compiling his memoirs. It is understood that this is the work he desires to accomplish before he dies, and he thinks that he cannot accomplish it should he remain on the bench.

## NOT IN ACCORD ON BABY ISSUE.

ENGLISH LABOR LEADER DIFFERS WITH PRESIDENT.

John Burns, in Speech on Child Question in London, Says We Must Have Our Slaughter of Babies We Have Before We Shout for Higher Birth Rate.

(BY DIRECT WIRE TO THE TIMES.)

LONDON, March 25.—(Exclusive Dispatch.) John Burns, labor leader and president of the local government board in the Cabinet, took issue with President Roosevelt in a great speech last night on the baby question.

"I do not plead for a desolating flood of babies," he said. "I attach more importance to quality than to quantity in this matter. Let us first look properly after those we have before starting an agitation to produce a greater number. Let us mitigate the slaughter of innocents under a year old, and cease our cruel neglect of those above that age before shouting to the nation to give us a higher birth rate."

Mr. Burns was speaking in his capacity as president of the delegates to the national conference on infant mortality. His audience consisted of distinguished persons who packed Caxton Hall, all deeply concerned in the child life of Great Britain. Proceeding, the orator inveighed against the bottle-feeding of babies, so prevalent in this country.

"Don't subtilize your maternity," he said. "Absolutely the best food for infants is mother's milk. If this must be denied, then cow's milk promises the least danger and the largest benefit. Following cow's milk come various modifications of cow's milk as the next best substitute for natural food. This brings us face to face with the necessity of driving the adulterator of cow's milk into the sea."

"The milk supply of this country must be pure," cried the president of the local government board, with an outward drive of his great right arm. The audience rose to its feet, and stood for a full minute, waving hats and handkerchiefs and cheering. Mr. Burns went on to declare that with all its faults, Great Britain led the world in the preservation of infant life.

"Industries flourish, mothers labor, and babies decay, but less with us than with any other comparable nations," he said. "We lose 125 infants per 1000, France, 137; Belgium, 155; Italy, 172, and Germany, 204."

"But we make a good showing only relatively. Six months before birth and six months after mothers ought to be out of the factories and in their homes. This would enormously reduce blindness in children and save them innumerable other evils. We shall pass the milk bill and the anti-grog bill. These will do wonders for the little ones."

**United Societies of Chicago Wins Its Point and Question Will Be Placed on Ballot.**  
[BY THE ASSOCIATED PRESS.—A.M.]  
**(CHICAGO, March 25.—Exclusive Dispatch.)** The United Societies has won its fight for a popular vote on the question of the open Sunday saloon. It secured a majority of votes after a long struggle, although many occurred by Judge C. M. Walker in the Circuit Court, the jurist authorizing the mandamus writ compelling the board to place the question on the ballot. The Legislature had declared the court held that the board of election commissioners did not have the power to pass finally as to the admissibility of any question of public policy on the ballot. The Legislature, through the courts, refused to give such power. The question then resolved itself to the issue as to whether or not it was one of public policy.

"The court further holds," said Judge Walker, "that the question proposed is academic merely, devoid of vital interest to the whole community, that the petitioners have a clear legal right to have it put on the ballot and that the board of elections must do so. Therefore, the order of the court will be that the demurrer is overruled and the writ of mandamus issued as prayed."

**CRIMINALS FORCE BANKS TO CLOSE.**  
CAUSE RUN ON TWO IN NEW YORK'S "LITTLE ITALY."

Organized Gang of Blackmailers and Murderers Bring About Their Suspension, and Compel President of One to Fly from City With His Family.

[BY DIRECT WIRE TO THE TIMES.] NEW YORK, March 25.—[Exclusive Dispatch.] The most remarkable notice of a bank suspension ever posted was affixed to the window of Pat's Bank after the doors were closed yesterday afternoon. It read as follows:

"The clientele of this bank be calm and trustworthy, as the banker, Pasquale Patti, has been obliged to absent himself to protect his existence and his family. He has been molested and threatened, and will be back soon. He possesses forty-five houses and \$100,000 life insurance, and his bonds of \$15,000 with the State of New York."

An organized gang of blackmailers and murderers, operating in New York without fear of interference by the police, has succeeded in closing the banks "Little Italy" and driving Pasquale Patti, a millionaire banker from the city, with his wife and son. Pasquale Patti is known as the "J. P. Morgan of Little Italy."

He was acquitted by a Coroner's Jury yesterday of the murder of Francisco Palante, who tried to rob the bank and kill him three weeks ago. Then the gang of which Patti was a tool, has forced him to flee, and by organizing a bank on the bank at Nos. 235 and 240 Elizabeth street, compelled it to suspend.

A crowd that packed Elizabeth street from Houston to Prince streets congregated when the news that Patti's bank had suspended and ran through the Italian quarter. Then followed a run upon the bank of F. Accitelli & Son, No. 239 Elizabeth street, and that institution, too, was forced to close.

A special guard of fifty policemen has been placed in the vicinity of the bank of the Duke of Devonshire, who is a brother of Coroner A. Peter Accitelli, says he closed his doors as a matter of precaution and will reopen as soon as the panic is over.

[BY THE ASSOCIATED PRESS.—A.M.] CANNES, March 25.—Spencer Compton Cavendish, eighth Duke of Devonshire, died here yesterday of heart failure. He was born July 23, 1823.

LONDON, March 25.—The news of the death of the Duke of Devonshire came unexpectedly to England, and has caused widespread regret. His death leaves a gap in the public life of Great Britain, for, although his withdrawal from the Balfour ministry when Joe Chamberlain launched his fiscal policy had estranged him from a majority, he still had a large following and took an active part in the campaign against tariff reform. He delivered his last speech on this question just one year ago, on the occasion of the jubilee of his entrance upon a political career.

Few men have spent a more active political life than the Duke. He has been almost continuously a Cabinet member in charge of some important department lately as leader of the Liberal Unionists. He led the Liberals during the temporary retirement of

Gladstone in 1875, and was offered, but refused, the Premiership after the Midlothian campaign of 1880. He was again offered this honor upon the defeat of home rule, but he again refused. The Duke was also active socially, and his entertainments at his Piccadilly residence and at Chastworth house in Derbyshire and his other country houses were the most notable of their kind. Members of the royal family frequently were his guests.

The Duke has no immediate family, and the dukedom passes to his nephew, Mr. Cavendish, who married the daughter of Lord Lansdowne.

**SUITS ARE THREATENED.**  
Railroads Must Divest Themselves of Their Coal Properties by May 1 Next.

[BY DIRECT WIRE TO THE TIMES.] NEW YORK, March 25.—[Exclusive Dispatch.] Atty-Gen. Bonaparte today intimated that the Department of Justice will not hesitate to bring action against the railroads under that provision of the Hepburn law which requires them to divest themselves of their coal properties by May 1 next.

L. A. Wilmer of Baltimore is now engaged in preparing suits which will be pushed after the date named. Pressure has been brought to bear by members of Congress to persuade the President to have instituted merely a test suit under this provision of the law, and some surprise was shown today when the Attorney-General's intimation became known.

**ACTRESS GETS DIVORCE.**  
Chalmers, an Ardent Worker, Posed as Wealthy Son of Magnate and Was Only a Valet.

[BY DIRECT WIRE TO THE TIMES.] NEW YORK, March 25.—[Exclusive Dispatch.] Mrs. Hazel May Chalmers, known on the stage as Hazel May Hall, obtained in the Supreme Court yesterday a final decree of divorce from Edwin T. Chalmers. They were married in 1904, she said, that she had been introduced to Chalmers by a music publisher. He represented himself as the son of a railroad superintendent and owning \$100,000 in his own right.

He wooed her impetuously, gave her many presents, including diamond rings, and a solid gold chain bag. Chalmers told her that he lived with his father at the Holland house, but that there would be difficulty about their marriage as his father had very strict ideas about such things.

Finally, he persuaded Miss Hall to marry him and he went back to his "father." When the father discovered the marriage he disinherited the son. So Chalmers claimed, and he told his wife to go back on the stage. On inquiring, she found there was no Chalmers at the hotel, but a valet for a man named Cole.

Mr. Cole said to the actress: "Chalmers was my valet, but I discharged him some time ago. We have been missing jewelry and I suspected him."

Chalmers soon afterward was sent to prison for larceny and his wife began suit for annulment and returned to the stage.

Vegetarianism Will Gain Converts if Beef, Mutton and Pork Keep on Barring.

[BY DIRECT WIRE TO THE TIMES.] CHICAGO, March 25.—[Exclusive Dispatch.] Father and the family will be reduced to vegetarianism if meat maintains its wayward course toward higher prices, for retailers report that within the week beef has advanced a cent a pound, mutton and lamb chops threaten to become luxuries at a gen-

**RESTFUL SLEEP**  
MR. DARIUS PIERCE OF HAVERHILL, MASS., 72 YEARS OF AGE, WHO WAS TROUBLED WITH INSOMNIA AND CONSTIPATION CAUSED BY INDIGESTION, WAS COMPLETELY CURED AND RESTORED TO HEALTH BY THE GREAT TONIC STIMULANT, DUFFY'S PURE MALT WHISKEY.

In a recent letter Mr. Pierce said: I have used Duffy's Pure Malt Whiskey to a considerable extent, although not an invalid. I am 72 years of age and enjoy pretty good health. I am at times troubled with insomnia, also constipation, the latter a result of indigestion, which in my case is relieved by the use of your Malt Whiskey. I do not use it daily but always have a bottle in my room, and when feeling out of sorts or in need of a stimulant or tonic, I find that Duffy's Malt fills the bill. At present I am using it when I retire. I find that a small quantity quiets the nerves, and instead of lying awake for hours I soon drop off into a quiet, restful sleep and awaken in the morning with a clear head and a stomach ready for a good breakfast. Duffy's Pure Malt Whiskey is entitled to all the praise you can give it through the medium of printers' ink or otherwise.—DARIUS PIERCE, 10 Court Street, Haverhill, Mass.

Thousands of unsolicited letters of gratitude like this of Mr. Pierce are received from grateful patients who are anxious to extol the merits of this great life saver and renewer of youth—Duffy's Pure Malt Whiskey.

**Duffy's Pure Malt Whiskey**

is an absolutely pure distillation of malted grain; great care being used to have every kernel thoroughly malted, thus destroying the germ and producing a predigested liquid food in the form of a malt essence, which is the most effective tonic stimulant and invigorator known to science; softened by warmth and moisture its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach.

If you wish to keep young, strong and vigorous and have on your cheeks the glow of perfect health, take Duffy's Pure Malt Whiskey regularly, according to directions. It tones and strengthens the heart action and purifies the entire system. It is recognized as a medicine everywhere.

**CAUTION**—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey, be sure you get the genuine. It's the only absolutely pure medicinal malt whiskey and is sold in sealed bottles only; never in bulk. Price, \$1.00. Look for the trade-mark, the "Old Chamist" on the label, and make sure the seal over the cork is unbroken. Write Dr. Curran, consulting physician, for a free copy of illustrated medical booklet and free advice. Duffy Malt Whiskey Co., Rochester, N.Y.

**Classified Liners.**

Times Classified Liners. The rate for inserting "Want" ads in The Daily Times is as follows: per word, each insertion; minimum charge 25c; except under special conditions, the rate for a single insertion is 10c per line, minimum charge 25c. "Special Notices," "Personal," "Society Meetings," and "Bath and Massage."

"Liners" (classified) advertisements for Sunday insertion received over the counter by telephone after 11:30 o'clock Saturday night will be inserted under heading "Too Late to Classify."

Sunday real estate advertisements, to be classified properly, must be in The Times office before 10:30 o'clock Saturday night. Rates 1/4 cents per word.

The Sunday circulation of The Times exceeds 75,000 copies, and more "liners" are regularly printed in its columns than in the five other Los Angeles newspapers combined.

Telephone your want advertisements. Ring up "The Times" any time of day or night and secure prompt and careful attention.

The Times cannot guarantee accuracy or assume responsibility for errors of kind occurring in telephoned advertisements.

THE TIMES will not be responsible for notices that are inserted in error or for advertisements ordered for more than one time.

**STANFORD CONFIDENT.** EXPECTS TO DEFEAT POMONA STANFORD UNIVERSITY. M The Stanford track athletes think that their team will compete with the Pomona local track on Friday at the Pomona Invitational on campus on Thursday noon. In fifteen men and the trainer, Coach Bill Smith, says that Pomona should give the "varisty the feeling that it has had this season. It is a good sign," says the southerners will have a hard time, but matters will be easily solved. The Pomona freshmen will be unable to meet coming the day after the Pomona Invitational in California. The Claremont are conceded more first place and the team has a Cardinal this season, and in the springer, Miller, the men and the pole vaulter, Miller, still out of the game, the men

mer had a first secure in the 1 and Merriman can also p of any of the Cardinal en- nile over the last. Martin's nce is 3 feet 11 1-4 inches. It is at this point that the has been shown. There is also 20 feet 11 1/4 inches. Surgeon will take the 10 or 12 seconds. Operator on Steamer at Portland, Or.,  
in Communication With Admiral  
Evans's Flagship.

(BY THE ASSOCIATED PRESS—A.M.)  
PORTLAND (Or.), March 25.—The  
wireless operator of the steamer Rose  
City, which is anchored in this har-  
bor, last night picked up the end of  
a wireless message from Admiral  
Evans's flagship Connecticut.

At first Operator Braddock could not  
realize that he was one of the prin-  
cipals in breaking a world's record. But  
he looked up data on the subject,  
which showed that no wireless was  
ever before transmitted so far over-  
land.

The Rose City operator sent a few  
words to the battleship squadron, and  
asked to be notified if they were re-  
ceived. An answer was soon forth-  
coming that every word could be  
made out distinctly.

Since the arrival of the steamer in  
Portland harbor Monday night she has  
been picking up wireless messages  
from the government station at Point  
Loma, near San Diego, a distance of  
1100 miles. Dozens of brief dispatches  
were received from there last night.  
Until very recently it was not thought  
that messages could be transmitted to  
a ship lying at a port situated far in-  
land. When the United States cruis-  
ers Boston and Chicago were here  
during the Lewis and Clark Fair they  
failed to talk back and forth with  
each other coming up the river. While  
in port the operators never thought of  
such a thing as to try to communicate  
with the Mare Island navy yard at  
San Francisco. There was a prevail-  
ing fallacy that no message could be  
forwarded from a port situated 100  
miles from the sea.

### NO DESIGNS ON MEXICO.

Ambassador Thompson Reassures the  
Southern Republic Regarding  
Lower California.

(BY THE ASSOCIATED PRESS—A.M.)  
MEXICO CITY, March 25.—Ambas-  
sador Thompson, discussing the atti-  
tude of the American government to-  
ward Lower California, or any other  
Mexican territory, and the statements  
in the American press of the advan-  
tage or even probability of the Amer-  
ican government acquiring Lower  
California or Magdalena Bay, through  
purchase, said:

"It is not and could not be the policy  
of the United States to acquire the  
territory of anything else belonging to  
Mexico, but the fact that the two  
countries are neighbors necessitates fre-  
quent application, one from the other,  
for privileges for the conduct of their  
affairs.

"The recent refusal of the Mexican  
government to permit small arms prac-  
tice on land was clearly within their  
rights, and this was in no sense a ques-  
tion after this decision had been trans-  
mitted to Washington. The American  
government is very well pleased with  
the concession it secured, and is  
grateful for the courtesies which have  
been shown by Mexico."

### WILD RUMORS AFLOAT.

Coming Visit of American Fleet to  
Japan Has Exciting Effect on  
Many of Her People.

(BY DIRECT WIRE TO THE TIMES.)  
TOKYO, March 25.—[Exclusive Dis-  
patch.] The Nichi-Nichi Shimbun re-  
ports that the coming visit of the  
American fleet is causing many wild  
rumors, but it is confident that when

### NEGLECTED COLDS

GOOD ADVICE TO WISE WOMEN AND  
PRUDENT MEN.

"Don't trifle with a cold." Is good  
advice for prudent men and women.  
It may be vital in the case of a child.  
Proper food, good ventilation and  
dry, warm clothing are the proper  
safeguards against colds. If they are  
maintained through the changeable  
weather of Autumn, Winter and  
Spring, the chances of a surprise  
from ordinary colds will be slight. But  
the ordinary light cold will become  
severe if neglected, and a well-es-  
tablished, ripe cold is to the germ of  
diphtheria what honey is to the bee.  
The greatest menace to child-life is  
the neglected cold. Whether it is a  
child or adult, the cold slight or se-  
vere, the very best treatment that can  
be adopted is to give Chamberlain's  
Cough Remedy. It is safe and sure.  
The greatest popularity and immense  
sale of this medicine have been at-  
tained by its remarkable cures of this  
ailment. A cold never results in  
pneumonia when Chamberlain's Cough  
Remedy is given.

the visit is actually made it will  
materially conduce to the future friend-  
ship and mutual interests of the two  
countries.

The Asahi Shimbun does not fear  
the American naval policy in the Pa-  
cific, but thinks that the traditional  
friendship of America and Japan will  
remain unshaken so long as their views  
are harmonious in respect to China,  
upon which country the general peace  
of the Far East depends. The other  
papers express themselves as delighted  
with the prospective visit of the fleet,  
which they say will be warmly wel-  
comed.

### JAPAN FOR PEACE.

Demonstration in Honor of Delegate  
to The Hague Is Indorsement of  
Government's Policy.

(BY DIRECT WIRE TO THE TIMES.)  
TOKYO, March 25.—[Exclusive Dis-  
patch.] The welcome and dinner in  
honor of Kikoku Tsusuki, who has  
just returned home from the peace  
conference at The Hague, turned out  
to be an unprecedented demonstration  
in favor of peace and Japan's peace  
policy.

Vicount Kiyoura, a former Cabinet  
minister, made a speech in which he em-  
phasized the fact that Japan had not  
courted war since the restoration in  
1868.

The Kokumin Shimbun, commenting  
editorially on the same subject, says  
that Japan in the last forty years has  
been occupied with furthering the  
cause of civilization and culture, the  
attention paid to keeping up the ar-  
maments being simply the honorable  
maintenance of peace.

The New York Assembly yesterday  
passed, without amendment, the Senate  
bill providing for a new charter re-  
vision commission for New York City.

### The Superiority of the Angelus

No careful buyer, for home, office, store or factory, would consider  
the purchase of a sewing machine, a typewriter or an implement of any  
kind which would perform only a part of the function for which it was  
designed.

No music lover who desires the best can afford to consider the pur-  
chase of a player-piano without first having fully investigated the new  
Angelus products. The Knabe-Angelus Piano, the Emerson-Angelus  
Piano, and the Angelus Piano, all with the marvelous new "Melodant"  
attachment.

The Melodant—found in Angelus productions only—is the last step,  
the final perfection of the player-piano. The "Melodant" accentuates  
every melody note of the composition being played, subduing the har-  
monies in the most human manner. The "Melodant" makes skill unnec-  
essary in the artistic rendition of the most intricate numbers, and places  
the Angelus instruments in a class alone, in a sphere unattained and un-  
attainable by any other player-piano in the world.

No player-piano can be perfect, musically, artistically or mechan-  
ically, without the individual accentuation device, the "Melodant." None  
other than the Angelus contains it.

# PUBLIC EXHIBITION OF THE MOST WONDERFUL MACHINE OF THE CENTURY

## A Page Printing Telegraph Instrument Attached to an Ordinary Typewriter

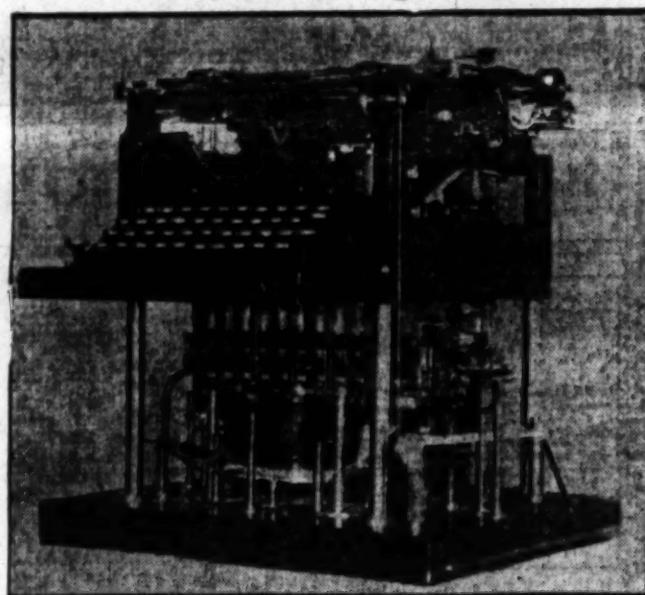

Will Be Given at the Offices of the  
U. S. W. Printing Telegraph Co.

On March 26, 1908

This instrument known as the BURLINGAME TELE-  
GRAPHING TYPEWRITER, one of the various models  
operated by the U. S. W. PRINTING TELEGRAPH COM-  
PANY is a marvel of ingenuity destined to revolutionize  
the telegraph business of the world.

This invention can be attached to two ordinary type-  
writers situated 100, 1000 or 5000 miles apart but con-  
nected by a telegraph or telephone wire, and a message  
written on one typewriter will be instantaneously repro-  
duced on the other machine in plain type. The sender  
of the message does not have to be an expert, it only  
being necessary to strike the letters desired. The Bur-  
lingame instrument will also work perfectly with all  
wireless systems.

The advantages of the Page Printing Telegraphing

Typewriter over the old  
style Morse instrument  
are as many as are those  
of the electric car over the  
horse car, the electric  
light over the old fashion-  
ed oil lamps or the pala-  
tial ocean steamer over  
the slow moving sailing  
vessel.

As an example of the  
many uses this machine  
will be put to, take the  
case of a concern having  
an office in one section of  
the city and their factory  
in another. Both the of-  
fice and the factory are  
equipped with typewrit-  
ers to which are attached  
the Burlingame instru-

ment connected to the telephone wires.

The manager at the office dictates a letter to his  
stenographer who in turn calls up central and obtains a  
connection with the factory. The stenographer then  
writes the message on her typewriter and it is immedi-  
ately reproduced on the typewriter at the factory. Both  
offices now have copies of the correspondence. Messages  
can be sent from the factory to the office in a similar  
manner. The same process is used in transmitting  
messages between cities.

The two Burlingame instruments (the first completed)  
which are to be exhibited here this week will, on the  
week following, be sent to New Orleans and then to  
Washington, D. C., where a test is to be given them.  
Afterwards they will be taken to New York at the re-  
quest of several financiers who are to become interested  
in their manufacture. This should prove interesting to  
the Los Angeles people who are already stockholders in  
the company and to those who contemplate investing.

## EVENTS IN LOCAL SOCIETY.

**IMPORTANT** among yesterday's functions was the beautifully appointed luncheon given by Mrs. Cornelius Cole of Colegrove in honor of Mrs. Jones, wife of Judge James Jones of Cleveland and sister-in-law of former Senator Jones. The guests included Mrs. John P. Jones of Santa Monica; Mrs. Edward Gorham and Mrs. William Reese and Mrs. Alice Bernard, niece of Gen. Sherman; Madam Ida Hancock, Mrs. Ben C. Truman and Mrs. E. P. Brown.

## Mrs. Woodhead Hostess.

The home of Mrs. C. B. Woodhead of Vermont avenue was opened to members of the Kappa Kappa Gamma Alumni Association when it entertained as a courtesy to Mrs. W. W. Canby, the grand president, who is now a guest in this city. Nine different societies were invited. The decorations were most artistic. In the reception hall

was recently complimented with a pleasant afternoon function given by Mrs. E. M. Coleman and Mrs. Frances Birdsell of No. 92 West Fifth street. The prevailing color in the decorations was pink and the appointments were all suggestive of the ocean voyage which Mr. Moses and his wife plan to take. The ceiling was canopied with pink streamers from which hung hundreds of small pink boats. On the dining-room table was a large floral bowl filled with pink slippers overflowing with rice and resting on a sand-bordered mirror. Invitations were decorated with marine scenes and slippers filled with rice were given as favors. During the afternoon piano selections were rendered by Miss Katherine Bosford and Miss Ethel Frances Coleman sang. Games were played and the prize, a hand-painted plate, fell to Mrs. C. A. Parmelee. Among the guests were Mrs. Robert McIntyre, Mrs. Horace Bigelow, Mrs. Harry Dirley, Mrs. J. A. Wannon, Mrs. S. M. Cool, Mrs. John Hootnoll, Mrs. R. A. Lee, Mrs. C.

HEIRS WIN CONTEST.

Imperial Valley Contest Decided in

Their Favor by Local Land

Office.

The contested Imperial Valley land

case of Andrew W. Rogers against the

heirs of Della R. English was decided

in favor of the heirs yesterday by the

register and receiver of the local

United States Land Office.

Mrs. English made a homestead en-

try in 1862 and the following year of-

fered first annual proof of the improve-

ments required by law. A few months

later she died. A contest was filed

by Rogers in 1867 on the ground that

the second annual proof had not been

offered. Gen. F. C. Prescott, register,

holds that sufficient testimony was in-

duced by the contestants to show that

the improvements required during the

second year of settlement had been

made.

Johnnie again accounted for the greater portion of the trading at yesterday's sessions on the London and Stock Exchange. There was a noticeable waning of interest even in that security and it is evident that the general public is tired of guessing war and is willing to let the issue alone until the completion of the battle between the professional bulls and bears, which has been going on for the past few days.

Contrary to general expectation, there was no strengthening of quotations upon the news that the last payment had been made under the terms of the agreement. The market trading of the day showed a loss of a half point from the level of the previous day. There was evidence that a selling movement, which started on Saturday, has not yet been exhausted, but it seems impossible to obtain reliable information as to the source of this movement.

Morning trading opened at 11. fractional, higher than Tuesday's close, but the quotation quickly slipped back by fractional notch to 10 $\frac{1}{2}$ . At the informal, a further notch was lost and trading continued to fluctuate between the session at a level of 10 $\frac{1}{2}$ , only a quarter point above the low point of Saturday. All 35,500 shares were traded in during

Of the offideals, Consolidated came in first, more play than for some weeks past and advanced five points at the morning session. Sales of the offideals were good, and there was good demand with light offerings, but only result being the transfer of one board lot at a further gain of seven and a half points from the morning. Extensive maintenance was neglected and lower with sales of only 7 shares at 88. Daisy lost three points on the transfer of one board lot. Florence advanced five points on the morning. Extensive maintenance of its former weak tone with sales of 400 shares at 34, while Blue Bull showed on the sales list with sales of 100 shares at 100. The market was quiet. The balance of the list was made up of unimportant trading in a few cheap advan-

**NEVADA STOCKS.**  
**SAN FRANCISCO LIST.**  
[Exclusive service to The Times by The Los Angeles Stock Brokerage Company, room 2000, floor, Citizens' National Bank Building.]  
SAN FRANCISCO, March 25.—The market today showed more activity, with a large increase in the volume of business, and noteworthy advances. Goldfield Consolidated was up 10 points, and Nevada Consolidated 10 points, while Daisy showed a loss of 10 points. Lone Star was in great demand, 15,000 shares changing hands. Red Hills and Silver Peak both showed strong gains. Nevada Consolidated was some time. In the Tonopah list, Tonopah Mining was strong, showing an advance of 10 points, with general trading. Belmont and Macmillan both made gains. In the Bullfrog list, Belmont was the market. In the Bullfrog list, Belmont

comer Montana went up four points. Trampco, which had been in the red, was better than last week. Nevada Hills also showed additional strength.

New York came in early this morning with a rise in the large blocks of *Metallum* shares, and for the first time this week *Metallum* and *Shoshone Consolidated* was bid for from the East. The increase of the mine production and the work of the *Shoshone* was the cause of the new work every shift, and with the normal conditions practically returned in that camp. It is responsible for today's activity. *Salt Lake City* was the only place where the *Shoshone* was bid for. Chicago showed more animation than for some time. A healthy demand is developing for the better class of *Ranchario* stocks. Following are the closing prices of the day:
